HC-CBLB TEACHING - DRY BONES

Begin to call the DNA of God that is in the marrow of your bones the record that your spirit knows it has within it. Your spirit and bones know the DNA of who you are in Christ. Begin to speak to the record of the memory of the DNA inside your marrow. Call forth the breath of God to come and blow into your bones, into your marrow, to restore what should have been there in the first place. Then call the four winds of heaven to establish a boundary around you so you can live in the atmosphere of heaven displaying the full DNA of what God is. It starts by faith.

1. You are going to recognize the DNA you carry inside, you must recognize you are not a human being but you are a spirit being that carries the potential to become a living being.

2. You must resolve in your heart who you are. You must resolve very clearly whether you are a human being, a spirit being, or desire to become a living being. You must release it by faith. It starts by faith calling that, which is not as if it was.

3. You must receive it by the decrees that you make actually speaking out the word of God until the reality hits your life, and it must be restored.

4. The last thing is that it must be restored by revelation. If you do not have a revelation, it is called a 'numb skull' anointing. You need to ask God to quicken this until it becomes a revelation to you because revelation releases the mandated power and authority and the government of God to see it come to pass in your life. God wants it to come to pass more that you do. You draw near to Him and He will draw near to you. Hallelujah!

Prayer for Dry Bones

Thank You Holy Spirit that You are a God that brings life. You are a Spirit of absolute life; in You there is no death. Oh, bones hear the word of the Lord. Today I speak to you. I speak to the marrow in my bones and I say to you today, hear the word of the Lord. Bones you shall live with the record of the DNA, you shall live with the power of the resurrection in the DNA of God! Oh bone marrow, hear the decree of my spirit to you today: live, live, live, live! Bones live in the record of the DNA. Live oh bones, live! I speak to you, I speak to the breath of God, oh breathe into my bones that they might live, that I might become a living being with the DNA of God inside of me as a son. I speak to the marrow of my bones; hear the word of the Lord! Reproduce what I was - live, live, live in Jesus name! Live in the name of Jesus. O breath of God come from the four corners, from dwelling before the throne of God. Come and build the tabernacle of your glory around me. Come release the winds of heaven to establish the atmosphere of heaven that I might live as a supernatural being in that atmosphere. Oh bones live. Live in the revelation knowledge that you are a living being! Lord, today I ask for these that are slain in the valley, the record of Adam’s sin. Father, I ask today for the breath of Your presence to blow into their bones that they may live Lord. That they might live and become a great and exceeding army, unstoppable, full of glory, full of power, full of might, full of dominion. Jesus that we would live! Hallelujah!

Father, today I give You everything I have learned. Father, for the full potential of what is in there. Father, I stand together today in agreement with Your word that You would bring into completion what You have started. Lord, that You would finish what You have begun in me. Lord that Your name would be lifted up high. Jesus that You would be glorified as The One who was the
door that made a way for us to come. Holy Spirit, that You would find Your role accomplished in us as You reveal us to the Father and shows us off to the world. Father, thank You that we live in a family; Lord, that we are going to be a bride, a victorious spotless, atmosphere carrying, bride who is going to change everything on this earth. In Jesus Name, Amen.\(^1\)\(^2\)
