HC-CBLB PRAYER - SPLITTING SOUL AND SPIRIT (2)

Father, in the name of Jesus, by faith today, I take a log and split that image of dividing the soul and spirit by faith. I take the word of God like a hammer and I smash the division of the soul and spirit. I put the sword between them and I drive the sword between to divide my soul and spirit. In Jesus Name, I speak to my soul: I take the word of the Lord; I take the sword and put it between my soul and spirit. I drive the sword of the Lord, of the word of God between my spirit and soul and destroy the yoke between my soul and spirit; I divide them. Soul you will bow down to my spirit.

Father, I thank You today that You created me a spirit being. I am created in the realm of eternity in the council of God assigned to do works in this dispensation. Father, in this place You assigned me to do specific things. You designed me to be a spirit being, to host my soul and host my body - I am not a human being with a soul and spirit.

Father I ask for the Spirit of the Knowledge and revelation of God to begin to release to me the Knowledge of who I really am. That it would begin to impact me and I would begin to burn and release a sound in my body of the frequencies of the DNA of God that is held within me that out of the resurrection glory that sits inside of me. That the revelation would burn in my being until it would come to pass for me. Father, I ask for the grace of the Lord to come over me as I begin to work this thing out, as I begin to engage the process and protocol. Father that You would do all that is necessary - wherever there is junk; I ask that you expose it. Father, that my spirit man can stand truly in the Glory of the Lord on the face of the earth, to bear Your image so I would carry it as a sign of the millennium reign.

Father, Your word said in John 6 that everyone who eats Your body and drinks Your blood will not die Lord; I want that record in my body. That I will not die because of the testimony of my spirit man hosting my body once again to the glory of God. Amen

I want my body living in my Spirit Being. I want to change the frequency of my DNA, the testimony that Jesus gave me in his body and blood change the record. I want the Seraphim to come and burn the record of my being, of my DNA, to burn out all iniquity, transgression, sin that manifests in my body, and that the fire burn it out to change the DNA as well. I got the blood of Jesus, Seraphim, and the Spirit, which is a witness on the face of the earth, and the testimony of three. The Bench of Three testifies over my life. Your spirit has full knowledge of the Kingdom, but Your body has shut it down when the record that is on Your autosomes begins to change the program with the new program. You will begin to change- People will say who is this guy I see in you – the 4 faces of an eagle, ox, man, and lion. You will float on the air, walk through walls. We are creative light being. As a creative light being, I have dominion over created light- I carry a different frequency, I carry a different light being – I carry colors inside of me, colors and fragrances.\(^1\),\(^2\)
